HYOGI SIM

Oak Ridge National Laboratory, Virginia Tech
simh@onrl.gov, (540) 391-0202

Objective: To obtain a research and development position that will both utilize and enrich my current skills.

CURRENT POSITION

Postmasters Research Assistant: Technology Integration Group, Oak Ridge National Laboratory
Ph.D. Student: Department of Computer Science, Virginia Tech

RESEARCH INTERESTS

- High Performance Computing, Large-Scale Data Management, Active Storage, Parallel Processing
- File and Storage Systems, Distributed Systems, Operating Systems, Database Management Systems
- Non-Volatile Memory, Flash Memory

EDUCATION

Ph.D. in Computer Science, Virginia Tech, VA — *present*
- Advisor: Dr. Ali R. Butt

M.S. in Computer Science, Virginia Tech, VA — *Dec. 2014*
- Advisor: Dr. Ali R. Butt
- Thesis: AnalyzeThis: An Analysis Workflow-Aware Storage System

M.S. in Electronics and Computer Engineering, Hanyang University, S. Korea — *Feb. 2008*
- Advisor: Dr. Jaehyuk Cha, Dr. Sooyong Kang
- Thesis: A Study of Performance Impact of Merging Storage Layers on Flash-Based DBMS

B.S. in Urban Planning, Hanyang University, S. Korea — *Feb. 2005*

RESEARCH EXPERIENCE

Multi-Tiered Storage System in High Performance Computing — *2016-present, Oak Ridge National Laboratory*
- Designing a software-defined storage system that orchestrates heterogeneous storage tiers based on user-specified workflow execution policies.
- Designing and developing a NoSQL store-based global metadata manager that provides a unified namespace abstraction over heterogeneous storage tiers.
- Developing a client-side shared library that allows applications to interact with the metadata manager.
  (FUSE, Lustre, Ceph, MySQL, HyperDex)

Shared-Memory Programming Framework for Processing-In-Memory Architecture — *2015-present, Oak Ridge National Laboratory*
- Developed a high-level data structure and a programming framework that facilitate the data analysis using PIM devices.
- Developed a runtime system that optimizes the data placement among PIM devices.
- Developed a device driver which emulates PIM devices in a NUMA architecture.
  (NUMA, Pthread, Linux Kernel)

File System-Integrated Search and Discovery Services for High Performance Computing — *2015-present, Virginia Tech and Oak Ridge National Laboratory*
- Developed a file system-integrated metadata indexing framework that supports user-defined tagging.
- Developed an storage-side data reduction and automatic metadata extraction framework based on the tagging-based file search.
- Implemented the prototype framework in GlusterFS and command-line utilities.
  (GlusterFS, SQLite, Linux)

Exploiting Active Flash in High Performance Computing Storage — *2011-2015, Virginia Tech and Oak Ridge National Laboratory*
- Developed an active storage target framework based on SCSI T10 OSD-2 specification.
- Enhanced OSD initiator driver and exofs in Linux to support the active processing.
- Designed and developed a FUSE file system for the active OSD devices.
- Developed a workflow scheduler within FUSE to orchestrate scientific workflow tasks across active OSD devices.
- Developed provenance management via SQLite within the file system.
  (Linux Kernel, SCSI T10 OSD-2 Protocol, FUSE, SQLite)

Managing Multimedia Data for Content Servers with Hybrid Storage — *2007-2009, Database Lab., Hanyang University*

- Developed content server log analyzer to analyze content popularity.
- Developed a prototype Linux file system for storage class memory device.
  (Linux Kernel, Windows Media Server)

Design of a NAND Flash Memory-Based File System Supporting Transaction and Record Structure — *2006-2008, Database Lab., Hanyang University*

- Developed a framework to identify FTL mapping schemes of NAND Flash memory storage devices.
- Developed a DBMS which directly manages raw NAND Flash memory.
  (Linux, Wisconsin Storage System, ARM-based embedded board)

Construction of a Protein Function Database — *2006-2008, Database Lab., Hanyang University*

- Developed a GUI environment which verifies protein graphs extracted from academic documents.
  (Windows, SQLServer, Delphi)

WORK EXPERIENCE

Oak Ridge National Laboratory — *Postmasters, Mar 2015-present*

- Designed and developed an integrated search and discovery service for large-scale distributed file systems. (GlusterFS, SQLite, Linux)

Oak Ridge National Laboratory — *Research Intern, Jan-Aug 2013*

- Designed and developed a node local SSD-based framework for processing near storage in a HPC environment. (Linux Kernel, SCSI T10 OSD-2 Protocol, FUSE, SQLite)

Pitapat Mobile, S. Korea — *Jan-June 2011*

- Developed a social marketing web application and a social quiz game running on Facebook. (C#, Javascript, JQuery, HTML, PHP, SQL Server, MySQL, Amazon EC2)

Dept. of English Education, Hanyang University — *Feb 2010, Aug 2009*

- Developed an online-survey web application. (Linux, PHP, MySQL, Apache)

Metabuild co., S. Korea — *Dec 2008*

- Developed a lane recognition system module for self-driving vehicles. (Linux, C, ARM-based embedded board)

TEACHING EXPERIENCE

Computer Organization II — *Spring 2012, Fall 2011 (Teaching assistant)*
- Graduate Teaching Assistant, Dept. of Computer Science, Virginia Tech

File Structure — *Spring 2009, Fall 2007 (Leading lab sessions)*
- Graduate Teaching Assistant, Division of Computer Science and Engineering, Hanyang University

Data Structures — *Spring 2007 (Leading lab sessions)*
- Graduate Teaching Assistant, Division of Computer Science and Engineering, Hanyang University

Object Oriented Programming — *Spring 2005 (Leading lab sessions)*
- Graduate Teaching Assistant, Dept. of Computer Science Education, Hanyang University

GRADUATE-LEVEL COURSES

Virginia Tech: Statistics in Research, Multiprocessor Programming, Research Method in CS, Advanced Parallel Computation, Advanced Topics in System and Network Security, Operating Systems, Software Refactoring

Hanyang University: Advanced Operating System, Computer Algorithms, Database System Implementation, Real-Time Systems, Cryptography, Database Tuning

RECOGNITIONS

Analysis Restaurant: In November 2015, *DEIXIS online magazine* featured AnalyzeThis storage system as a monthly highlight, based on the SC '15 paper (*https://deixismagazine.org/2015/11/analysis-restaurant/*).

AWARDS & SCHOLARSHIPS

Virginia Tech: Graduate Research Assistantship — *Fall 2011, 2012, 2013, Spring 2012, 2014*
Hanyang University: BK21 Scholarship — *2009*, Academic Record Scholarship — *2005*

TECHNICAL SKILLS

Skillful in Linux application/system/kernel programming.
- **Languages:** C *(proficient)*, C++, Python, BASH, PHP, JAVA, C#, Javascript
- **File & Storage:** Linux VFS, Device Mapper, FUSE, SCSI, iSCSI, SRP, OSD, exoFS, GlusterFS
- **SSD:** NAND Flash Memory, Storage Class Memory, Flash Translation Layer
- **Databases:** PostgreSQL, MySQL, MS SQLServer, IBM DB2, SQLite, Redis, HyperDex
- **Tools:** gcc, gdb, vim, Glade, Eclipse, Visual Studio, LaTex, gnuplot
